PROFILE

"As a forward-thinking innovator, I transform ideas into powerful, real-world solutions that blend creativity with precision. I thrive on tackling challenges with an intuitive, results-driven approach, delivering outcomes that leave a lasting impact. Fueled by a relentless drive for excellence, I push boundaries to turn ambitious visions into reality."

SKILLS

- Python
- Java
- DBMS
- Web Development
- UI/UX Design
- Artificial Intelligence
- Machine Learning
- Business Intelligence

LANGUAGES

- English
- Tamil
- French

EDUCATION

B.TECH CSE (DS & AI),
Dr.M.G.R Educational and Research Institute
2022 – Present | Maduravoyal, Chennai-600095

INTERNSHIP

Machine Learning Intern, *Thirumoolar IT Solutions*
Applied machine learning algorithms to real-world datasets, performed data preprocessing, and created Power BI dashboards to visualize insights. Gained basic fundamentals of prompt engineering.

PROJECTS

Advanced Traffic Management System
Built a dynamic traffic control solution with vehicle detection, congestion level analysis, and real-time map display for smarter traffic flow management.

Smart Waste Segregating System (In Progress)
Developing an automated waste segregation system using smart sensors for efficient recycling and waste management.

E-commerce Website
Built a modern shopping platform with product display, dark mode, chatbot integration, and custom animations for a professional user experience.

Portfolio Website
Designed and developed a responsive, animated personal portfolio showcasing skills, projects, and certifications with interactive UI/UX features.

CERTIFICATES

- Python for Data Analysis
- Java Fundamentals
- NPTEL Elite – User-Centric Computing for HCI
- Microsoft Azure - Technical Skills
- Cybersecurity – NASSCOM Certified
- Hackathon Event – Certified Participation
- IoT Workshop – College Event
- Power BI Online Workshop – Certified
